

MASTERing food chain microbiomes

Key outputs and innovations of direct relevance to food and agriculture from the H2020 funded MASTER project

Webinar: Wednesday 31 May 2023

(15:00-17:00 CEST; 14:00-16:00 IST; 09:00-11:00 EDT)

The **MASTER** project (Microbiome Applications for Sustainable food systems through Technologies and EnteRprise) encompasses research on a range of microbiomes across the food chain.

We are inviting you to a webinar to meet representatives of our 29 partner organisations from across Europe, to mark the end of this exciting project.

Research Outputs

Our Project Coordinator, Paul Cotter, Teagasc will provide an overview of the project, followed by highlights of Research Outputs from the MASTER team.

01

Innovation Outputs

Dominic O'Neil, Qiagen will lead a session where the MASTER team will tell you about Innovations from the project.

02

Beyond MASTER - the future of microbiome related technologies and their application in the food chain

An exciting panel discussion, chaired by Tanja Kostic, AIT, will complete the webinar.
